

Feed Tap™

Drilling Machine

PIPE TOOLS & VISES
SINCE 1896

Independent, controlled feed makes this the preferred tool for PVC taps.

- Manual power recommended for taps on PVC.
- Chips are flushed out of the line using the bleed-off valve.

- Compact and lightweight with independent feed control.
- Drills through 3/4" - 2" pressurized ductile iron, cast iron, steel or plastic pipe.
- Kits available for AWWA, 110 Compression, and NPT.
- Powered by either drill motor or manually.

Works great with cordless or electric drills.

- Shell Cutter and CRPD25 retain the coupon.
