

Kwik-Snap 2500™

Production Cast Iron Soil Pipe Cutter

The Kwik-Snap™ 2500 Production Cast Iron Soil Pipe Cutter is a powerful portable high volume soil pipe cutter for cast iron pipe. With its 3.5 second cutting cycle time from the electric hydraulic power, you can cut more pipe faster to get the job done quickly. It has a capacity of 1-1/2" to 6.00" OD pipe and its unique chain design cuts pipe fast, thus eliminating the need to reset for each cut on the same size pipe. It is quiet and reliable and easy to use.

The Powerful, Portable Solution to Your High Volume Soil Pipe Cutting Requirements

Features

- Pipe Cutter for cast iron soil pipe
- Soil pipe cutting capacity from 1-1/2"-6.00" OD
- 3.5 second cutting cycle time
- Unique chain design eliminates the need to reset for each cut on the same size pipe
- Semi-automatic operation
- Significantly cleaner than sawing soil pipe... Virtually no airborne particles are generated when cutting
- Dual pressure switches for safe operation
- Extremely portable design, easily fits through any standard door way
- Replaceable cutter chain
- Electric/hydraulic power is quiet and reliable
- Built in handle and pneumatic tires for easy transport

Specifications

- Overall dimensions: 32" x 20" x 50"
- 10" All-terrain pneumatic wheels
- 1 hp. electric motor, 11.2 amps, 60 Hz
- Hydraulic fluid required - 3 quarts, 20W, Mobile DTE 26 or equal
- Operates on standard 110 VAC
- U.S. Patent 5,086,961
- Options: Kwik-Snap™ Table, Table Section Assembly, Leg and Coupling Assembly and parts
