

# WASSI PLUGGING KITS

## FLEXIBLE PLUGGING KITS FOR TUBING & PIPE REPAIR

Instantly stops the flow of residual water in pipes.

Eliminates the need for bread, expensive freezing devices and other types of plugs.

Allows for quick repairs on copper tubing & PVC pipe up to 2".

Stainless steel cables & sheaths resist rust and corrosion.

Cables slide easily through elbows, tees and valves.

Patented safety feature eliminates pinched fingers.

Quick-interchange cables available from 1/2" to 2".

All parts made and assembled in the USA.

One-year guarantee on parts & labor.

**The Wassi plugging system halts the flow of residual water in pipes instantly.**

**Flexible cable is easily inserted past elbows, tees and common valves!**
